## Meet your presenter

### Allison Beeforth

Allison is a Mathematics teacher on the Gold Coast. She has been teaching for over 25 years and is always looking for ways to engage students in Mathematics. She has been involved with the MathsCraft programme by running sessions in both Charleville and on the Gold Coast and also sessions for both primary and secondary students.

#### Audience

- Primary
- Junior Secondary
- Senior Secondary

#### Presentation mode

### MathsCraft - doing maths like a research mathematician

MathsCraft is a programme offering the chance for students to think and work as a Mathematician. Students are inspired to question and use thinking skills in order to explore problems. In this presentation, we will run through a sample problem and see how it can meet the needs of all learners with its low floor and high ceiling approach. In addition, we will discuss the benefits of running the programme across various school settings from the west to the city and from primary aged children to secondary.
