all!

Keynote Speakers

Opening Keynote
Professor Merrilyn Goos
University of Limerick

Bill Simpson Plenary
Closing Address
Joel Speranza

Meet your presenter

Joel Speranza

Joel Speranza is a Head of Mathematics and more importantly a maths teacher. In 2020 he was the winner of the QCT Excellence in Teaching award for his contributions to the mathematics education of students, particularly during COVID-19 learning from home. Joel uses a blended-learning approach in his own classroom, a byproduct of which is his youtube channel, which has over 1 million views. He is also the creator of mathsvideosaustralia.com, a website that students and teachers across QLD have used to help deliver and learn the new senior syllabus.

How to not answer "that" question (Keynote)

"When are we ever going to use this in real life?"

Every maths teacher has been asked this question and we've all answered it. In fact, you've probably tried quite a few answers to this question. Let's dissect a few of these answers and see how we should approach this thorny little topic and figure out how not to answer it next time.

Blended Learning in the Mathematics Classroom

Joel Speranza has been using blended learning in his mathematics classroom for 7 years. With the introduction of the new senior syllabus, this style of teaching has become increasingly valuable. In this presentation Joel will share:

- What blended learning looks like in his classroom.
- The benefits of blended learning in the maths classroom.
- How to practically start using this pedagogy in your own classroom.
