## Meet your presenter

### Dr Margaret Marshman

Margaret Marshman is a mathematics educator at the University of the Sunshine Coast. She has taught all levels of mathematics and science education from early years, primary and secondary. Margaret is passionate about mathematics teacher education. Her research includes peoples' beliefs about mathematics, and its learning and teaching, using problem solving and inquiry pedagogies, helping others to visualise and reason in three dimensions, and statistical thinking.

### The Pedagogical Beliefs of Queensland Teachers

#### Audience

- Junior Secondary
- Senior Secondary

#### Presentation mode

Teachers' mathematical teaching practices are strongly influenced by their beliefs about mathematics and its teaching and learning. These teaching practices then influence how their students view mathematics and their ability to do mathematics. This session will present findings from a recent survey of Queensland teachers' mathematical beliefs and identify consistency between their beliefs and pedagogical practices.
